

REMARKS

The above identified application was allowed in the Notice of Allowance mailed February 17, 2010.

In reviewing the Application, the Undersigned noticed in Claims 43, 46 and 49 that the terms "at least about" and "about" used in relation to particle size of mineral pigment may have allowed for multiple interpretations. In an effort to provide increased clarity to the claims, Claims 43, 46 and 49 have been amended.

Support for these amendments can be found at least in paragraph [45] of the specification.

Since these amendments are (A) made to better protect Applicants' invention and (B) do not require substantial amount of additional work on the part of Office, Applicants respectfully request that this amendment be considered and entered.

In the event the Commissioner of Patents and Trademarks deems additional fees to be due in connection with this application, Applicants' attorney hereby authorizes that such fees be charged to Deposit Account No. 50-3313.

Respectfully submitted,

Date: March 30, 2010
